About the Forum

The Synergy Leadership Forum is a three and a half day session developed to help your new leaders improve the skills they'll need to continue to grow the success of your organization for years to come. Throughout the session attendees will be presented with real-world challenges and asked to put together proposals on the strategy they would use to solve them. The session will include a special guest speaker, a self-assessment tool, and peer group discussions led by a mentor. Mentors will share their many years of leadership experience in the HVAC industry and encourage their team members to step out of their comfort zone. This year's mentor team includes Sam De Angelis (CCM), Mike Houghton (Dowling), Marty Rosica (Hawks & Company), Kevin Almon (Vital Mechanical), and Sal Tortorici (Yearout).

Who Should Attend

- Anyone who influences and causes outcomes in your company
- Someone who inspires others
- Your team members who you count on to help run your business
- Key employees who will help shape what your company will look like in the future

What They'll Learn

- Build self-awareness by identifying what they're good at
- Understand how to communicate with people to get results
- Create an organizational vision that will achieve positive results, delight their clients, and provide rewards for their team members
- Develop strategies for tackling real-life leadership challenges
