

ABOUT NATIONAL COMPRESSOR EXCHANGE

Since 1978, National Compressor Exchange (NCE) has strived to bring you the finest remanufactured compressors available. Our endless pursuit for perfection, quality and competitiveness has made us the largest independently owned and ISO Certified compressor remanufacturer in the world. We are a true remanufacturer, not a rebuilder or repair shop. Our goal is to provide our customers with high quality equipment with longevity, the latest industry protection devices available, and a comprehensive installation package. This will lead to a smooth and easy installation, lack of short-term failure, and low warranty rate.

SYNERGY PARTNERSHIP BENEFITS

- 5% rebate on all invoices paid in 44 days
- Free shipping on all outbound compressors in the continental USA
- Discounted return freight on cores when using our specified trucking company and bill of lading
- Technical support available Monday through Friday from 7:30am to 5:30pm
- Online technical support available through our website-e mail-after hours
- Interested in partnering with NCE? Please contact Robert Brosnan for a credit application to receive the benefits above.
- Already working with NCE? Next time you place an order, just mention that you are a Synergy member.
